¹ **Single** is a basic network tariff for general residential or small business consumption. The tariff applies to energy usage charge 24 hours per day, 7 days per week. There is no Off Peak or Shoulder charge associated with this tariff.

² **Units** ‘c/kWh’ = cents per kilowatt hour and is the unit of measurement for electricity. ‘c/day’ = cents per day. ‘\$/kW/month’ = dollar per kilowatt per month and is the unit of measurement for electricity demand. ‘\$/kW pa’ = dollar per kilowatt per year and is the unit of measurement for electricity demand. ‘c/kWh/day’ = cents per kilowatt per day and is the unit of measurement for electricity demand.

³ **Daily Supply Charge** is a charge that applies for supplying electricity or gas to your premises for each day of the billing period, regardless of how much electricity you consume.

⁴ **Controlled Load (hot water and heating)** is a basic network tariff for electric hot water and/or storage space heaters using a time-switch. Only available to installations currently taking supply under these tariffs. Please refer to your distributor’s website for details on the applicable time periods.

⁵ **Time of Use or Two Rate** is a basic network tariff for residential and small business consumption where consumption charges vary based on Peak and Off Peak times. Please refer to your distributor’s website for details on the applicable time periods.

⁶ **Demand Tariff** is a cost-reflective demand tariff. Please refer to your distributor’s website for details on eligibility and applicable time periods.

** Usage allocation assumptions apply for the purposes of demonstrating that the non-flat standing offer tariffs do not exceed the relevant maximum annual bill amounts determined by the Essential Services Committee on the Victorian Default Offer Price Determination 2022.*
